## REGULATION CHANGES

**APPROVED BY MOTOR SPORTS COUNCIL**

---

Committee:	Speed Events Committee
Date of meeting:	19 <sup>th</sup> July 2017
Closing date for consultation:	1 <sup>st</sup> September 2017

### Section S

#### Existing Regulation

**S10.3.3.** Must be provided with a means of starting which does not involve push starting except in the case of force majeure, unless period defined.

No current regulation

**S7.1.6.** Competitors must declare on their entry forms whether or not they have ever held a valid RTA licence. Competitors who have never held a valid RTA licence and who do not have any qualifying signatures towards upgrading their Competition Licence on their Upgrade Card may be specifically observed at the event.

**S10.5.2.** Sports Libre and Racing Cars. Only pump fuel or methanol may be used. When using methanol, the addition of 10% by volume of Propanone is allowable (Note J.5.13.6).

#### Proposed Regulation

**S10.3.3.** Must be provided with a means of starting which does not involve push starting, **or the use of external equipment or personnel**, except in the case of force majeure, unless period defined **or vehicles in possession of a Competition Car Log Book or Vehicle Passport prior to 31<sup>st</sup> December 2018.**

**S10.3.3.1.** Any connections to assist the starting of the car must be either in the drivers' cockpit or at the tail of the car requiring a horizontal connection.

**Implementation Date:** 1<sup>st</sup> January 2019

**Reason:** Safety. Any vehicle log booked from 1.1.19 will need a method of self starting.

**S7.1.6.** Competitors must declare on their entry forms whether or not they have ever held a valid RTA licence. Competitors who have never held a valid RTA licence and who do not have any qualifying signatures towards upgrading their Competition Licence on their Upgrade Card may be specifically observed at the event.

**(a) Any competitor whose vehicle is not self starting, at any part of the course, must declare on their entry form the method of operation together with a detailed starting instruction.**

**Implementation Date:** 1<sup>st</sup> January 2018

**Reason:** Safety. To allow for assessment risk by the Clerk of the Course in preparation of the meeting as well as knowledge where a vehicle may stop on track.

**S10.5.2.** Sports Libre and Racing Cars. Only pump fuel or methanol may be used. When using methanol, the addition of 10% by volume of Propanone is allowable (Note J.5.13.6).

**(a) Any vehicle using methanol must include an additive which provides a distinguishable colour and smell when burning.**

**Implementation:** 1<sup>st</sup> January 2018

**Reason: Safety. No response from Technical Advisory Panel, so this proposal is being presented again to Council.**
